

Is Everyone

Ready for Winter?

Town Snow Removal Priority Route Map

Every snowfall is unique! Town crews endeavor to follow work procedures and priorities for snow removal and sanding in the Town of Taber. In order to enhance safe traffic movement and provide satisfactory driving & walking surfaces, crews are out whenever reasonably possible using the resources that are available. We thank all citizens for their patience while we do our best to clear snow.

Residents are asked to do their PART!

Snow and ice can seriously impair the ability of people to get around safely. In accordance with By-law No. 4-2008 Section VI, we ask you to please remove any snow or ice from your sidewalk or driveway crossing within 24 hrs of snowfall. Failure to do so may result in a fine.

Weekend Snow Clearing is a BONUS!

The Town of Taber's Policy states that work will commence within 24 hours of the snowfall having ended, EXCLUDING Saturdays and Sundays and Statutory Holidays, UNLESS DEEMED NECESSARY, this also applies to Sanding and Sidewalk routes as well. For all priority maps visit www.taber.ca.

Winter TIPS for Pets

Not all pets are "fine" when left outside and unsupervised without a heated shelter. Just because your dog has fur, it does not mean he/she can withstand the cold. Do not leave your pets in a cold car for long periods as it acts like a refrigerator. Leave them safe at home when you go shopping. Fresh water is a must at all times. Pets do not get enough water from eating snow.

ENJOY over 6 km of paved Trails this Winter!

The Town strives to clear 6 plus kilometres of trails during the winter for pedestrian safety, however these trails are deemed as lower priority during a snow event and will be cleared when staff and equipment are available to do so.

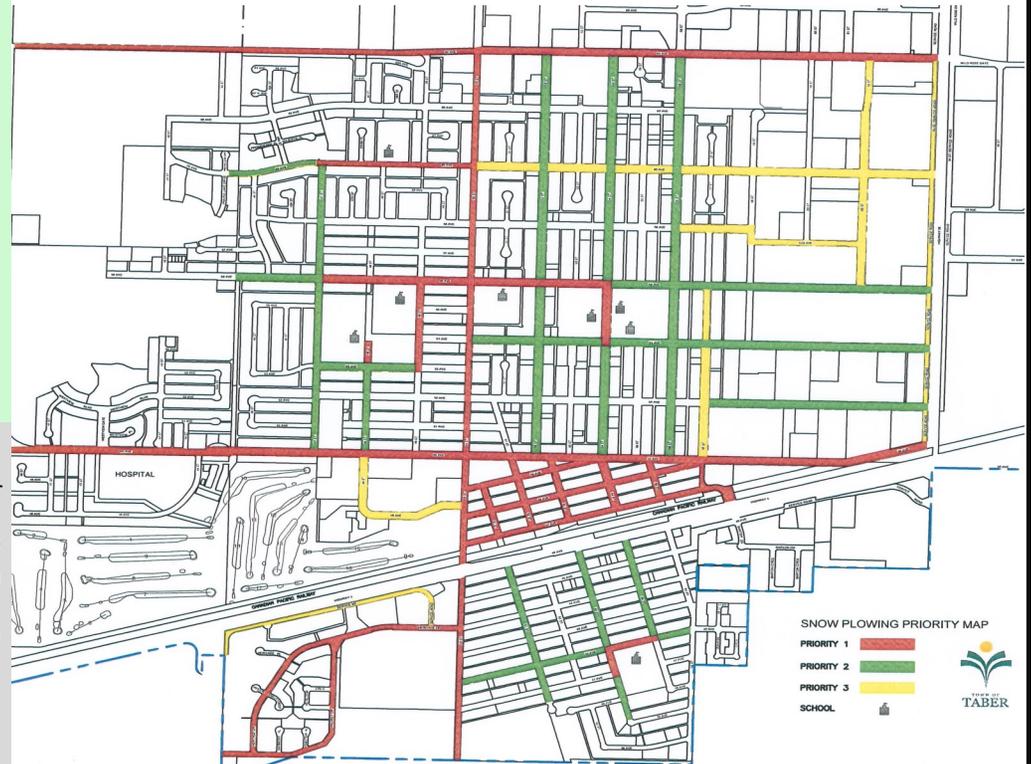

SAFETY FIRST!

Winter Check List

- Are your tires good for Winter Driving?
- Is your Block Heater working?
- Clear car windows before you drive!
- Drive according to conditions!
- Do you have a winter Survival Kit?
- NO extension cords across Sidewalks!
- Be sure to dress for the weather! Watch for pedestrians!

Visit www.taber.ca to view Snow Plowing Priority Map on a larger scale.

If road conditions are poor, do you really need to travel?

Designated Arterial and Emergency Route roadways, the Downtown core and School zones are marked in red and take first priority during snowfall events! Snow plowing operations will be ongoing, with second priority going to routes marked in green, followed by yellow industrial and commercial routes with remaining residential areas as deemed necessary. If you typically park your vehicle on the street and are going out of town or leaving for an extended period of time this winter, please find alternative parking before you go. If snowfalls are anticipated, residents are asked to be proactive and remove their vehicles from the street during business hours until the snow has been cleared off the road. Town crews strive to remove snow efficiently and clear routes as quickly as possible.
